JiFei Holding Limited

## About Us

Ji Fei Holding Limited is specialized in micro motor used for mobile phone, pager, toy car, electric toothbrushes and so on.

Being export since 2002, we have been establish business relationship with customer all over the world and can easily meet customers's requirement and offer our best service to conclude the business in lowest price but best satisfaction .

Except the vibration motor we can also manufacture punching mould , electric bike switch and mobile shield .

Our current annual production capacity for vibration motor is 80 million pieces per year.

Product series include cylindrical DC motors 0308, 0408, 0410, 0412, 0610, 0612, 0614, 0716; coin motors 0720, 0820, 0825, 0827 , 0830, 0834, 1020, 1026, 1027, 1030, 1034, 1036, 1227, 1230, 1234, 1260 ; SMT motors 0304; Linear motor 0832 and BLDC motor 0625, 0825.

All the motor can customized by different wire, rubber, bracket, voltage, current, speed and other special requirement you may have.

Your satisfaction will be our best honor.
